Study a Macquarie University Degree in the Sydney CBD

Offering some of Macquarie University's highly sought-after programs, students at Macquarie City Campus (MQC) enjoy the same quality learning and teaching as students studying at Macquarie University. Located above Wynyard Train Station, MQC is minutes from the Australian Stock Exchange, Martin Place and many international business headquarters.

Services and Facilities

MQC ensures excellence in learning and teaching through smaller class sizes. MQC has state-of-the-art facilities and services including a course specific library, brand new lecture rooms and computer laboratories. Students at MQC have access to all the facilities located at Macquarie University North Ryde campus including the library, gymnasium and careers counselling.

Postgraduate Studies

MQC now provides the option to study a Macquarie University postgraduate degree in the Sydney CBD. With three intakes a year, MQC offers great flexibility. Situated on the main transport hub of Sydney at Wynyard, MQC is a great way to combine postgraduate study with part-time work.

The Master of Information Technology gives students with an IT background the opportunity to develop specialist knowledge in key growth areas within the Information and Communication Technologies industry.

The Master of International Business is a modern business degree with a global outlook. This course provides an understanding of local and international business and develops strong technical and problem solving skills for working in a commercial field.

Macquarie University's Master of Accounting (CPA Extension) is the largest postgraduate accounting program — and was the first of its kind — in Australia.

Accounting at Macquarie City Campus

The Bachelor of Commerce – Accounting provides an excellent foundation for a range of accounting-based careers and satisfies the requirements for entry into professional associations such as the Certified Practising Accountants (CPA) and the Institute of Chartered Accountants in Australia (ICAA).

The course will develop your ability to think strategically and work independently while improving your business, leadership and communication skills. The Master of Accounting (CPA) allows students to work towards the CPA qualification while completing a Master degree in Accounting.

Business at Macquarie City Campus

The Bachelor of Business Administration is suitable if you want to gain a tertiary qualification in specific areas of business administration. It gives an in-depth understanding of the complex web of business interactions that occur in the current global market. Specialisations in this degree include Accounting and Marketing. The Master of International Business develops strong technical and problem solving skills for working in a commercial environment.
